## Bullock Road 2008 Semillon Sauvignon Blanc

---

The Bullock Rd brand is Mt Jagged's second tier brand that derives its name from the old bullock road that traverses along the roadside boundary of the Mt Jagged Vineyard. The road was used in the early 19<sup>th</sup> Century to transport produce from the land and sea up to Adelaide from properties lining the Murray River.

A blend of Semillon (70%) and Sauvignon Blanc (30%)  
From the Mt Jagged vineyard and the Southern Fleurieu.

**Cellaring:** will reward 1-2 years but really is a drink now wine.

**Viticulture:** 2008 had higher than normal rainfall with a warm vintage. The berry and bunch size was consistently small thus resulting in a good ratio of skin to juice and better colour and flavour extraction.

**Vinification:**

The three parcels were fermented separately in tank at initially cooler ferment temperatures that were gradually increased as ferment progressed. The parcels were then blended and bottled quickly to retain fruit freshness.

**Reviews:** Rating: 91  
(James Haliday 2010 Wine Companion)
